Basic Controls

The following explains how to control your character in-game.

Choose from two control schemes: **Arcade Style** offers a more conventional method of play based on precise, technical inputs. **Smart Style** lets you perform flashy special moves and combos using directional inputs and single button presses.

* Images show controls for the PlayStation®5 version.

To learn more about controls, mechanics, and the in-game battle HUD, check out the **Fighting Guide** on the game's official website.

ONLINE

▮ Wolf Tag creation

You will be asked to create a Wolf Tag when launching the OBT version of the game for the first time.
* 3 - 13 half-width alphanumeric characters (5 numerals or less)

* All images are from the PlayStation®4 version.

▮ Select a server region

After creating your Wolf Tag, you'll be asked to select a server region.
* You can change your selection from the Battle Settings screen at any time.
* The game will consider your chosen server region when performing search functions during online play. Your selection does not dictate the server you connect to as a player.

▮ ONLINE: Take the Fight Worldwide!

The Online panel on the main menu is where you can seek out other OBT players around the world.

▮ Ranked Match

Fight matches online. Your performance affects your points and rank.

In order to assign an initial rank, you'll fight three preliminary battles against the CPU. Your rank depends on your results.
* Leaving any of these battles midway will count as a loss.
