

THE KING OF FIGHTERS XV Patch Ver.2.51

Changes	Details
■ HEIDERN	
Heidern Slash	• Resolved: Visual effects wouldn't show when frames rolled back during online matches.
■ LEONA HEIDERN	
Baltic Launcher (Heavy/EX)	• Resolved: Attack hitbox would appear again after nullifying a projectile.
Baltic Launcher (Heavy)	• Adjusted the timing at which the final hit materializes. (Note was missing from the Ver. 2.5.0 change list. No changes made in Ver. 2.5.1.)
Baltic Launcher (EX)	• Resolved: Hit count would increase on block. This behavior was unintended. • Resolved: Damage on the final hit was lower than normal.
■ LUONG	
Close Standing HK	• Reduced pushback distance on hit and block. (Adjustment made to preserve certain legacy combo routes that the Close Standing LP pushbox change in Ver. 2.5.0 had rendered unusable.)
■ SHINGO YABUKI	
Jumping Blow Back	• Altered opponent behavior on midair critical hit (only if during a combo). • No longer hits opponents behind you.
